

### Combi TM3

Exchange system between blocks and knee pads. One saddle, 3 options...

Combi Tm3, a new patented system by Zaldi, allows the rider to Exchange from Thigh-Block to any of the other 2 optional knee pads, by the adjusting with the screws in the new flap design.

The saddles carries a pre-installation of the TM system. You will be able to change from the Thigh-Block to a big or medium knee pad, optional as you wish or need.

These optional elements are multi-positional and adaptable in inclination and height, to your measure.

OPTIONS are:

1-TM-System Ref: 00906

Thigh-Block-Thanks to the TM system or Thigh Block the rider's knees are completely free and your natural aids will be skilfully made and greatly improved.

2- R-Klass Ref: 00907

Big Knee Pad-Sizes 6 cm: high, 10: width 35: long

3- R-Kent Ref: 00908

Medium Knee Pad-Sizes 4 cm: high, 6: width, 30: long

Compatibles with all saddles manufactured by Zaldi

When you buy your riding saddle with the Combi Tm3 you have to choose one of the aforesaid options. Thanks to the pre-installation, you can afterwards change to another option or exchange between them easily.
